

# **Bridging Bridge Engineers**

*Session by Young Engineers*

*Wednesday 9<sup>th</sup> September 2009, 15:30-17:30 hrs*

As Thailand is hosting the first IABSE main event in South-east Asia in which academics, researchers and practitioners around the world gather and exchange views and knowledge on sustainable infrastructures development, young engineers division see this as a great opportunity to embrace and enhance the long term relationship among all members. Therefore the forum “bridging the bridge engineers” is held.

The event will be a forum where participants share the view on the following topics:

- How next generation engineers from all around the world can share the knowledge and experience in the long run
- Roles of bridge engineers in the coming decade
- Roles of bridge engineers in sustainable development

Chairman : Dr. Phongthon Tharachai

Chairman of Young Engineers Committee, Engineering Institute of Thailand (EIT)

Moderator : Dr. Praveen Chompreda

Lecturer, Department of Civil Engineering, Faculty of Engineering

Mahidol University
