NEW IABSE Publication:

‘Improving Infrastructure Worldwide – Bringing People Closer’

The IABSE Symposium ‘Improving Infrastructure Worldwide – Bringing People Closer’ in Weimar, Germany, September 19-21, 2007 attracted 580 participants and 100 accompanying persons from around the world.

The Report with CD has been published, including Keynote Lectures, Presentations and Posters addressing following topics: *Infrastructure as a Unifying Concept; Traffic Structures – Built for a Long and Efficient Life; Important Design Considerations – Design for Durability and Sustainability; Important Design Considerations – Design Movements. Check Engineering and Monitoring – an International Review on Quality Control Systems*

Keynote Lectures:

- Engelbert Lütke-Daldrup; Joachim Naumann, Germany
German Unity – a Success Story on the Development of Infrastructure in the Newly-formed German States
- Yao Jun Ge – H.F. Xiang, China
Great Demand and Great Challenge – Chinese Major Bridge Projects and Construction for Improving Traffic Infrastructure Nationwide
- Man Chung Tang, USA
Evolution of Bridges
- Chitoshi Miki; T. Konishi, Japan
Retrofitting of Fatigue Damaged Steel Bridge Structures
- Aad Van der Horst, The Netherlands
Life Cycle Management of Infrastructures: Towards an Integrated Approach of Design, Execution and Maintenance
- Ove Sorensen, M.L. Bloomstine, N. Bitsch, P. Linneberg, Denmark
Design Movements in Bridges
- Ian Firth, UK
Adding Confidence and Reducing Risk – The Role of Independent Design Checking in Major Projects

All contributions have been collected in a book (603 pages) and on a CD and can be ordered at: www.iabse.org/publications/orderform/index.php

**‘Improving Infrastructure Worldwide – Bringing People Closer’
Weimar Symposium Report – Vol. 93**

7 Keynote Lectures and 262 Contributions in English

Book (short version) and CD (full length)

603 pages

Format 170 x 240 mm

ISBN: 978-385748-116-1

Published : September 2007

Price : IABSE Member CHF 80.-

Non-Members CHF 140.-

Including mailing costs

The International Association for Bridge and Structural Engineering (IABSE) comprises 4'000 members in 100 countries. Founded in 1929, IABSE deals with all aspects of planning, design, construction, maintenance and repair of civil engineering structures. To fulfil its mission, IABSE organises conferences and publishes a quarterly journal, Structural Engineering International, as well as books and reports. The Association has a number of technical groups and presents awards in recognition of outstanding contributions in the domain of structural engineering.

Third parties may freely distribute this text or any part of it in print or electronic form.
